# Homes for our community

Does housing matter to you?  
If it does please read on...

Trimingham Parish Council seeks your views. We have a chance to build a community led housing scheme in Trimingham.

The parish council supports the proposal as it will deliver new affordable housing in the village. These homes will help meet the housing need of people with strong local connections through residence, family and/or work to Trimingham and the adjoining parishes of Gimingham, Sidestrand and Southrepps.

A community led housing scheme can deliver other benefits as well as new homes. We want your views to identify what we need to ensure Trimingham is and remains a vibrant, sustainable community which meets the needs of all residents.
